Old Commanding Officer

Colonel H. C. Wischart

Known throughout the Western Flying Training Command of the Army Air Forces as a man who got things done, Colonel Wischart's leadership was further proven by his part in activating the Pecos Army Air Field.

Born in Wellington, Kansas, Colonel Wischart graduated with high honors from the United States Military Academy in 1920 and later served at both Randolph and Brooks Fields in Texas. After serving at other fields throughout the country he was stationed in the territory of Hawaii for ten years. In 1940 he entered the Army Tactical school in Washington, D. C. after which Colonel Wischart was assigned to the office of the Chief of Air Corps as Assistant Chief of Personnel.

In November 1941, Colonel Wischart was elevated to the rank of Commanding Officer of Lemoore Air Field in California, where he served until assigned to Pecos Army Air Base in June of last year. Colonel Wischart holds ratings as Command Pilot and Command Observer.

New Commanding Officer

Colonel Orin J. Bushey

Colonel Orin J. Bushey, Pecos Army Air Field's new commanding officer is well qualified to command a flying training post, having entered the Army during the last war trained as an Aviation Cadet and has served with the Air Corps with the Regular Army since that time.

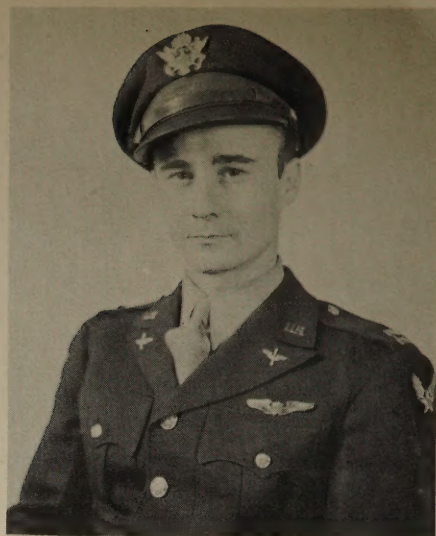

A graduate of the Advanced Flying School at Kelly Field, the Balloon and Airship school at Scott Field, Illinois and the Aircraft Tactical School at Montgomery, Alabama, Colonel Bushey holds all the Army Air Forces flying ratings, including Command Pilot, Command Observer and Airplane Pilot. Colonel Bushey has served three years on the Staff of the General Army Air Forces and one year as Assistant Chief of Staff under Major General Barton K. Young, Commanding General of the AAF Training Command, Fort Worth, Texas.

Colonel and Mrs. Bushey have a son, Second Lieutenant Robert H. Bushey, and a daughter, Carolyn Ann Bushey. The family resides at Fort Worth, Texas

Congratulations to the Class of 43-K on completion of your basic training. You the the last class of the 1943 series, and therefore should be the best one, climaxing the first year of the activity at this school.

We hope that we have made it reasonably hard for you here, so that you have not only grasped firmly the basic elements of your flying and military education, but have stiffened your discipline and determination for the severe tests you face ahead.

A part of us goes with every one of you. It may turn out that you will have to be our representatives in combat. Give them a lick for us by making full use of the personal weapons we have tried to give you.

We will be watching your achievements with pride and confidence. We shall be eager to hear from you of your adventures and your victories.

Good luck. God bless you.
